

Remote learning with Snappet

Creating student login credentials

In order for students to sign in at home, you have to create student login credentials. Students are then able to sign in at home on a (laptop) computer or on a smartphone. Please take the following steps to create login credentials for your students:

1. Sign in to your own dashboard (<https://teacher.snappet.org>).
2. Click on your class name at the right top corner, go to 'Settings' and then select 'Students'.
3. Click on 'Edit Student'.
4. Fill in a username and a password for that student.
5. Click on 'Save changes'.
6. Send the usernames and passwords to the parents of your students.

The screenshot shows the 'Edit Student' form in the Snappet teacher dashboard. The form is titled 'Edit Student' and has a close button (X) in the top right corner. It contains the following fields:

- Name:** A text input field containing 'Benjamin'.
- Infix:** An empty text input field.
- Last name:** A text input field containing 'Lee'.
- Grade:** A dropdown menu showing 'Grade 2'.
- Account details:** A section with a red header containing:
 - User name:** An empty text input field.
 - New password:** An empty text input field.
 - New tablet access code:** An empty text input field with a refresh icon (circular arrow) on the right.
 - Email address:** An empty text input field.
- Buttons:** A blue 'Cancel' button and a red 'Save changes' button at the bottom.

The background shows a list of students with names like Alexander Wilson, Benjamin Lee, Charlie Davies, Charlie Roy, Chloe Lewis, Daniel O'Ryan, Elijah Jones, Elodie O'Connor, Emma Brown, and Hazel Campbell. Each student has an 'Edit Student' button next to their name.

With help from their parent/caretaker, students are now able to sign in at home on any device. They have to take the following steps to do so:

1. Access a browser (e.g. Google Chrome).
2. Go to <https://student.snappet.org>.
3. Fill in the login credentials you have sent to them.

Add lesson content and monitor progress

Students are able to sign in to the same Snappet environment as they know from school. As a teacher you can sign in at <https://teacher.snappet.org> and assign your students new lessons and monitor their work. This works the same for you as it would at school.
